## EDUCATION

### Noida Institute Of Engineering And Technology

Bachelor Of Technology(Information Technology)

Nov. 2021 - Jul. 2025

CGPA: 7.7

### Sushant Public School

12th(PCM)

Jul. 2021

Percentage: 80

### D.A.V Public School

10th

Apr. 2019

Percentage: 83

## EXPERIENCE

### Celebal Technologies | Celebal Summer Intern

June 2024 – August 2024

- Done comprehensive training on Microsoft Azure, focusing on creating, deploying, and maintaining secure cloud architectures.
- Implemented cloud infrastructure tasks in Azure, including Virtual Networks (VNETs), Virtual Machines (VMs), and network security configurations.
- Developed and deployed a three-tier architecture across multiple VMs, ensuring secure, efficient network operations through VNET peering and network security groups (NSGs).

### Techplement | Cloud AWS Intern

May 2024 – May 2024

- Led a cross-functional team of four to successfully deploy a web application on AWS Cloud infrastructure.
- Managed application deployment using AWS Elastic Beanstalk, ensuring high availability and auto-scaling.
- Created and configured AWS EC2 instances to host the application, improving performance and reliability.
- Integrated AWS RDS for database management, optimizing data storage and retrieval.

### Bharat Intern | Web Developer Intern

Nov. 2023 – Dec. 2023

- Developed a personal portfolio website using HTML and CSS, and created a replica of the Netflix home page using HTML and CSS, demonstrating proficiency in front-end development and attention to detail.
- Implemented the layout of the Netflix home page, integrating responsive design concepts to guarantee optimal display on diverse devices and screen resolutions.

## PROJECTS

### EduNexis (Education Platform) | (MongoDB, Express.js, React.js, Node.js, Tailwind CSS) 🌐 [GitHub](#) | [Live](#)

Oct. 2024

- Developed a secure, role-based EdTech platform using the MERN stack, implementing JWT token-based authentication, cookie handling, and password encryption with bcrypt.
- Integrated Razorpay API to enable payment processing for course purchases, enhancing user experience and e-commerce functionality on the platform.
- Developed REST APIs for efficient management of course and student data, supporting data retrieval and updates.
- Designed a modular backend architecture with dedicated routes for specific functionalities and implemented role-based access control for students, instructors, and admin users.

### AirWay System | (C++, OOPs, MySQL) 🌐 [github](#)

Aug. 2024

- Implemented flight seat selection and availability updates, ensuring accurate and dynamic booking options.
- Managed secure booking confirmations, with transaction details stored efficiently in a MySQL database.
- Applied object-oriented programming (OOP) principles to create a modular, scalable, and maintainable system for future enhancements.

## SKILLS

**Languages:** C++, Java, JavaScript, HTML, CSS

**Familiar With:** MySQL, MongoDB, Express.js, React.js, Node.js, Tailwind CSS

**IT Constructs:** DSA, OS, DBMS, OOPs

**Tools:** Git/GitHub, VS Code, IntelliJ

**Cloud:** AWS (EC2, Elastic Beanstalk, RDS), GCP

## ACHIEVEMENTS

- Participated in GFG HackFest Conducted on 27th January 2024.
- Completed the AWS Academy Graduate-AWS Academy Cloud Foundations badge and completion certificate. ([Link](#))
