Professional Summary

Aspiring Data Analyst skilled in SQL, Python, Power BI, and Tableau with hands-on experience in data cleaning, transformation, and visualization. Strong in deriving insights from structured data and building dashboards for data-driven decision-making.

Experience

GenAI Powered Data Analytics Job Simulation

July 2025

TATA Group – Forage | July 2025

- Conducted exploratory data analysis (EDA) on structured datasets to identify trends and patterns
- Applied data-driven techniques for risk profiling and predictive analysis
- Performed data preprocessing and transformation to prepare datasets for analysis

Data Analysis Intern

ABES Institute of Technology | June 2025 – July 2025

- Cleaned and transformed 10,000+ records using SQL and Excel, improving data quality by 25%
- Developed and optimized **SQL queries** for efficient data extraction and analysis
- Built interactive dashboards using **Power BI and Tableau** to visualize trends and insights
- Applied **ETL concepts** to process and structure raw datasets for analysis

Projects

Pizza Sales Data Analysis (SQL, Power BI, Excel)

- Designed and optimized SQL queries to process structured datasets
- Performed data cleaning, transformation, and aggregation (ETL concepts)
- Built interactive Power BI dashboards to analyze sales trends and KPIs
- Generated actionable insights to support data-driven decision-making
- Simulated ETL pipeline for data ingestion and transformation

Involex – AI Legal Billing Extension (Data Processing Focus)

- Extracted and processed structured data from emails to generate billing summaries
- Applied data transformation techniques to improve accuracy and workflow efficiency
- Reduced manual effort by 40% through automation
- Worked on real-world data workflows simulating data processing pipelines

Krishi Setu (Data Handling System)

- Managed structured data for product listings and transaction workflows
- Designed backend logic for data storage and retrieval
- Simulated basic data pipeline flow for user and product data

Education

Bachelor of Technology (Computer Science Engineering)

2026

ABES Institute of Technology, Ghaziabad, Uttar Pradesh

CGPA :7.6

Technical Skills

Languages: Python, SQL, C++

Data Analytics: Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA), ETL Concepts

Data Visualization: Power BI, Tableau, Excel

Databases: MySQL

Libraries: Pandas, NumPy

Data Engineering Tools: Databricks, PySpark (Learning)

Achievements & Certifications

- Top 5 Finalist – Code Your Future, Microsoft (Noida)
- JavaScript Programming Certification – InDiLearn (Apr 2024 – Jul 2024)
