EDUCATION

BSACET, BSA College of Engineering and Technology, Mathura

2019 - 2023

B.Tech - Computer Science and Engineering - CGPA - 7.47

Mathura, India

EXPERIENCE

Meridian Solutions 

2024- 2025

Dynamics Developer(D365) Intern

Gurugram, India

- Design and Developed reports using Application Language.
- Work with cross-functional teams to understand their needs and provide Dynamics 365 solutions.
- Perform Testing of D365 features or customizations and report issues.
- Participated in code reviews, debugging sessions, to improve codebase health and team productivity.

PROJECTS

EntityManager: A RESTful CRUD API Platform  | Core Java, RESTful APIs, MVC

Aug 2024

- Developed a backend application in Core Java to manage CRUD operations for user and product entities via RESTful endpoints.
- Applied MVC architecture for clean separation of concerns and scalability.
- Implemented HTTP methods (GET, POST, PUT, DELETE) with robust input validation, exception handling, and standardized JSON responses.
- Used Postman for API testing and validation with proper status codes and headers.

Real-Time Document Collaboration Tool - Google Docs Clone  | SOLID Principles

Dec 2025

- Built a collaborative document editing tool allowing multiple users to edit and view documents in real-time with synchronization.
- Designed low-level architecture using SOLID principles to ensure modularity, scalability, and maintainability.
- Implemented core logic for document state management, version control, and user collaboration across sessions.

Student Result Management System  | Java, Spring Boot, MySQL, RESTful API

Feb 2026

- Built a RESTful API application to manage student records, subject and marks using Spring Boot and MySQL.
- Implemented CRUD operations with proper validations, exception handling and standardized JSON response for all endpoints.
- Designed relational schema with Student, Subject and Result entities and used JPA/Hibernate for ORM and database interaction.

TECHNICAL SKILLS

Languages: Java, SQL, HTML, CSS, JavaScript

Frameworks: Spring Boot, Collection Framework, JDBC, RESTful API, Data Structures and Algorithms

Developer Tools: Spring Tool Suite (STS), VS Code, IntelliJ IDEA, Postman, Git and GitHub

Database and Concepts: MySQL, Hibernate, OOPs, MVC Architecture, SOLID Principles

CERTIFICATIONS

Mastering Data Structures and Algorithms — Apna College

[Certificate]

Java Spring Boot 3 — Udemy

[Certificate]

EXTRACURRICULAR

- Conducted offline sessions on core Java for peers and juniors, focusing on object-oriented programming and fundamentals. *May 2023 – Dec 2023*
- Actively participated in and organized multiple cultural events and college festivals. *2019 – 2023*
